

FAST THEN. FAST NOW.

# KAS-Scaffolding Ltd Company presentation

Scaffolding services  
Renting  
Weather protection  
Low-voltage lights

# Speed

**That will benefit you**

There it now is! The frame for the renovation project.

A safe working environment installed fast, flexible and easy. The workers can now work in the same working conditions throughout the year.

This scaffolding will not be remembered very long, because as fast it was built, it will be dismantled.

# Speed

**That will benefit you**

There it now is! The frame for the renovation project.

A safe working environment installed fast, flexible and easy. The workers can now work in the same working conditions throughout the year.

This scaffold will not be remembered very long because, as fast and easy it was built, it will be dismantled.

# Safety

**A safe working environment is an attitude**

An effective way of dealing with work-environment related risks is to be able to identify and control the risks at the workplace. Safety principles need to be applied in all aspects of the work.

Our staff is trained among other things in the following areas; erection and dismantling of scaffolding, health and safety and first aid.

# High standards

Same quality of service every time

All our scaffolding will have safe access, guard rails, toe-boards and safe working areas. After a successful safety check the scaffold will be marked with a scaffolding card to indicate that the scaffolding is safe to use.

We follow safety guidelines that are required by the law and the customer.

# Company

**How would you describe KAS-Scaffolding ?**

Perhaps as a company that works in the safety business? Perhaps as a fast and flexible company that delivers on time? Perhaps as a company that continuously delivers services with high standards? Or maybe as a reliable business partner?

We hope that you describe us with all of these words.

# What do you need?

WE INSTALL SCAFFOLDING, WEATHER PROTECTION AND LIGHTNING SYSTEMS SO THAT THE WORKING CONDITIONS REMAIN THE SAME THROUGHOUT THE YEAR.

WE SPECIALISE IN PROVIDING SCAFFOLDING SERVICES FOR POWERPLANTS, PULP- AND PAPER FACTORIES AND OTHER INDUSTRIAL PLANTS.
